### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Fish on 10 July 2006.

The application has been amended as follows:

In the Specification:

Page 1, line 2, replace "May 20" with --September 22--.

In the claims:

Claim 1, between lines 2 and 3, insert a line starting with --a first electrode and a second electrode;--;

line 3, replace "that produces" to --configured to produce--; and

line 4, replace "that treats" to --configured to treat--.

Claim 11, line 2, "replace "in-line" with --on-line--.

Cancel non-elected claims 16-20 without prejudices to the filing of a divisional application.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: the limitations of first and second electrodes as added to claim 1 per the amendment of 2 May 2006 must be shown in the drawing. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: Because of the amendment and the remarks filed 2 May 2006, the previous rejections are no longer maintained. Also, for the record, the added limitations of the first and second electrodes have the support in the parent case 10/432,208 (referred to in lines 12-14 of page 5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
